PROFESSIONAL SUMMARY

Computer Science (AI & Data Science) graduate (B.Tech 2025) with strong analytical and problem-solving skills and a solid foundation in SQL, Database Management Systems, Software Development, and business process automation. Hands-on experience developing database-driven applications and working with structured data through academic projects and internship experience. Quick learner with excellent communication skills and a strong interest in ERP systems, SAP business processes, Procure-to-Pay (P2P), Record-to-Report (R2R), and enterprise operations.

TECHNICAL SKILLS

ERP & Business Process	:	SAP ERP Fundamentals, Procure-to-Pay (P2P) – Basic Understanding, Record-to-Report (R2R) – Basic Understanding, Business Process Fundamentals
Programming Languages	:	Java (Core), Python, JavaScript, C, C++, SQL
Software Development	:	OOP, Data Structures, DBMS, REST APIs, CRUD Operations
Development Methodologies	:	SDLC, STLC, Agile
Databases	:	MySQL, SQLite, PostgreSQL — CRUD, Joins, Indexing
Version Control	:	Git, GitHub, MS Excel, Postman, VS Code
Operating Systems	:	Windows, Linux Basics
Soft Skills	:	Communication, Problem Solving, Analytical Thinking, Teamwork, Adaptability

INTERNSHIP EXPERIENCE

Java Intern Strydo Technologies Pvt Ltd, India	Nov 2023 — Jan 2024
- Developed backend modules using Java and SQL to support business workflows. - Worked extensively with relational databases, data validation, and CRUD operations. - Optimized SQL queries to improve data retrieval and reporting efficiency. - Collaborated with development teams following Agile methodology. - Participated in testing and troubleshooting activities to ensure data accuracy and application reliability.	

PROJECT EXPERIENCE

Grocery Billing System using Full-Stack Django Web Application (Solo)	May 2025 — Jun 2025
- Designed inventory and billing workflows similar to enterprise order processing. - Managed product master data, inventory records, billing, and customer transactions. - Implemented relational database design using PostgreSQL. - Generated invoices and transaction reports using SQL-based operations. - Applied CRUD operations for product, inventory, and order management.	
Deepfake Video Detection using CNN, LSTM & Attention Mechanism (Team of 5)	Dec 2024 — Mar 2025
- Developed a deepfake video detection system using Python, CNN, LSTM, and Attention Mechanisms. - Built data preprocessing and model evaluation pipelines for video analysis. - Validated model outputs, analyzed performance metrics, and debugged prediction issues. - Conducted testing and benchmarking to improve model accuracy and reliability. - Collaborated with team members on development, testing, and optimization activities.	

EDUCATION

B.Tech — Computer Science & Engineering (AI & DS)	2021 — 2025
Siddharth Institute of Engineering & Technology, Puttur GPA: 8.44/10	
Intermediate (MPC)	2019 — 2021
Sri Chaitanya Junior College GPA: 9.5/10	
SSC(Highschool)	2018 — 2019
Keshava Reddy School GPA: 9.5/10	

CERTIFICATIONS

- The Joy of Computing Using Python — NPTEL Online Certification (Jul 2023)
- Python Programming Intern — Motion Cut (Oct 2023)
- Management: Becoming an Effective Leader — DOANEX-EDX (Apr 2024)

RELEVANT COURSEWORK

- Database Management Systems
- Financial Accounting Fundamentals
- Enterprise Resource Planning (ERP) Basics
- Management Information Systems
- Business Analytics

ADDITIONAL INFORMATION

- ☐ Interested in SAP ERP, P2P, R2R, Finance & Procurement Operations, and Business Process Management.
- ☐ Good understanding of SQL, Database Management Systems, MS Excel, Data Analysis, and Enterprise Applications.
- ☐ Strong analytical thinking, attention to detail, problem-solving, and documentation skills.
- ☐ Quick learner with excellent communication skills and the ability to work effectively in cross-functional teams.
